

## Get sales tax and VAT, simplified

With more than 10,000 taxing authorities and jurisdictions in the U.S. alone, sales tax management is a relentless and complex challenge. And it becomes only more complex for multinational companies tangling with the intricacies of VAT calculations and remittances. AvaTax for Intacct, which integrates Intacct cloud financials with AvaTax sales and use tax software from Avalara, **calculates sales tax and VAT for you.** It's automatic, accurate, and easy—and you can use it right at the point of sale.

## Key benefits

### Automate tax calculations

Eliminate tax-rate errors and ensure timely filing and remittance by automating real-time calculations. Those calculations are applied transparently at the time of transaction. Automated tracking and reporting mean your finance team is more productive.

### Keep up with tax rules

Ensure your calculations are pinpoint-precise: Tax rates and rules constantly change in the U.S. and around the world. So Intacct and Avalara continuously

and automatically update tax tables to ensure your calculations are pinpoint-precise. You can also take advantage of on-demand auditable reports to replace error-prone spreadsheets and improve compliance.

### Lower costs

Cut your labor and compliance costs with tax accounting software that keeps up with thousands of tax rates and jurisdictions. Automated tax calculations ensure you collect and pay the correct amount—and avoid costly fines and penalties.
