Key benefits

Take the pain out of time and expense management

Intacct Time and Expense Management simplifies and accelerates the entire time and expense process. Your employees enter their time and expense data anytime, from anywhere. Managers are instantly alerted to review and approve those reports. Employees receive prompt reimbursement in the right currency.

the progress and profitability of each project. Or you can monitor resources to set and meet goals for billable hours—for the whole team or for individuals.

Automate your billing and revenue recognition

You save time, increase accuracy, and reduce revenue leakage when your time and expense data automatically flows to your invoicing and revenue recognition processes. Quickly generate accurate invoices for projects and clients based on actual time and expenses as they are incurred. And post direct and indirect labor costs and recognize revenue in a timely fashion.
